Administration

- ❖ ERP systems are important to integrate and streamline various administrative and academic processes, enhancing efficiency, improving data accuracy, enabling real-time access to information, and supporting informed decision-making.
- ❖ The Library System wherein access to e-journals & e- resources, issuing, maintenance of accession register etc. is carried out through ILMS which is integrated in ERP system
- ❖ Closed-Circuit Television (CCTV) is used for enhancing security, monitoring student and staff activities, and ensuring the safety of the campus.
- ❖ Face recognition for attendance is a biometric system that automates and streamlines the process of recording attendance by verifying individuals' identities through facial recognition technology. It is used by both teaching and non-teaching staff, with records maintained in the ERP system
